TODAY & TOMORROW

SEPTEMBER 17-30, 1983

ADDRESS CORRECTION REQUESTED **RUSH — TIME DATED**

(Newsbriefs continued)

The Mailing Division has contracted an outside vendor to deliver all UCSF's foreign metered mail faster and at less cost than that of the US Postal Service.

Telerad Incorporated, an international air courier, also provides this foreign mail delivery service for four other UC campuses.

Telerad picks up UCSF's foreign metered mail daily and delivers it to each foreign country's postal delivery system. To assure the service's success, each UCSF department is asked to please separate its foreign mail from domestic metered mail by placing a rubber band around the foreign mail.

For further information contact Jon Gledhill, manager, Mailing Division, at x1124 or x5975.

Patient televisions in the Hospitals and Clinics now will be provided without charge to the patients, thanks in part to the Hospitals Auxiliary donation of $65,000.

The Nuclear Medicine Technology Educational Program, sponsored by Hospitals and Clinics, graduated two students in ceremonies on September 9. They are Wilson Chin and Eliana Caimanque.

Following completion of the program, the students are eligible to take the Nuclear Medicine Technology Registry Examination. There have been 22 graduates since the program began in 1977, according to Dorothy Duffy Price, technical director of the program. Heather Dickson is educational coordinator. The program is certified by the Committee on Allied Health Education and Accreditation (CAHEA).

MOVE

The Reprographics Department has moved to the Oyster Point facility at 612 Forbes Boulevard, South San Francisco, effective September 12. The campus mailing address of LS-103 and telephone extension 2781 remain the same. The move is not expected to cause any major delays in campus printing jobs.

(SFGH continued)

WEDNESDAY 28

UROLOGY GRAND ROUNDS. SFGH Cafeteria. 7:30 a.m.

THURSDAY 29

NEUROLOGY-NEUROSURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCE: *Liver Trauma.* Robert Lim, Surg. Rm. 4H40. 8:30 a.m.

FRIDAY 30

MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H40. 7:30 a.m.

DEADLINE

Deadline for the next issue of *Today & Tomorrow,* which will cover the time period Oct. 1-14, will be **Tuesday, Sept. 20, 11 a.m.** Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., Rm. 300, x1541 or x2557.

CONTINUING EDUCATION

DENTISTRY

Modern Restorative Dentistry. Sept. 23-24.

Over the Counter Drugs. Sept. 29.

Contemporary Radiography of the TMJ. Oct. 8.

Periodontal Prosthesis. Oct. 14.

Enhancing Endodontic Success. Oct. 15.

Held in C 701. For further information call x1101.

MEDICINE

Septic Shock. Hyatt-Union Sq. Hotel, S.F. Sept. 24.

Topics in Emergency Medicine. Sheraton Wharf Hotel, S.F. Sept. 26-30.

Pulmonary & Critical Care Medicine. Mark Hopkins Hotel, S.F. Oct. 1.

Use of Psychochemicals in the Practice of Medicine. Milo E. Rowell Aud., Fresno. Oct. 3. For further information call (209) 224-3235.

Urologic Surgery Seminar. Golden Gate Holiday Inn, S.F. Oct. 10.

For further information unless otherwise noted, call x4251.

Nobel Laureate Francis H. Crick, PhD, will speak on "Thinking About the Brain," at the Gordon Tomkins Lecture and Concert on Friday, October 7, at 3 p.m. in Cole Hall. Following Crick's lecture, French pianist Jean-Yves Thibaudet will present selections by Franz Schubert, Claude Debussy and Franz Liszt.

Crick, who is the J.W. Kieckhefer Distinguished Research Professor at Salk Institute for Biological Studies, San Diego, and adjunct professor, Chemistry, UC-San Diego, won the Nobel Prize for Medicine in 1962.

Twenty-year-old Thibaudet will play Schubert's Sonata in A Major, Op. Posth. 120 — Allegro Moderato, Andante and Allegro; Debussy's Preludes, First Book — Les collines d'Anacapri, Des pas sur la neige, Ce qu'a vu le vent d'Ouest; and Liszt's Paraphrase on Gounod's "Faust." Thibaudet was the second-prize winner at the International Piano Competition in Japan in 1980 and has won top prizes in Vercelli and Bolzano, Italy.

Gordon Tomkins, for whom the lecture and concert were created, was a professor and vice chair of the Department of Biochemistry and Biophysics at UCSF until his untimely death in 1975. A leading American molecular biologist, he pioneered research in the study of hormone action. He also was an accomplished classical and jazz musician. The memorial lecture and concert are free and open to the public.

Eat, drink and be merry will be the order of the day when the entire campus celebrates the dedication of the new Joseph M. Long Hospital and modernization of Moffitt Hospital at a pre-party celebration on Friday, September 30, from 3:30 to 7:30 p.m. in the Millberry Union Gym.

The following day, Saturday, the new Long Hospital will be dedicated at ceremonies beginning at 11 a.m. in the plaza northeast of the new Herbst Emergency Service entrance. Speakers include Speaker of the Assembly Willie Brown, UC Board of Regents chair Yori Wada and Chancellor Emeritus Francis A. Sooy.

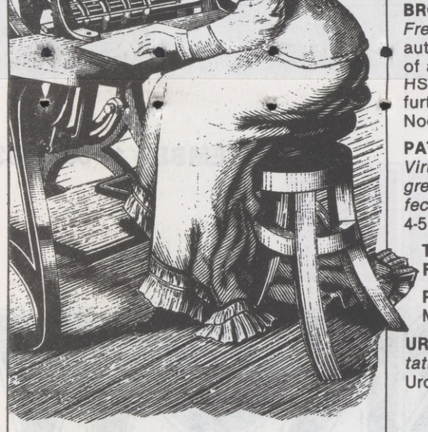
A free picnic lunch will be served from noon to 2 p.m. in Saunders Court, with entertainment that includes a dance band, a magician/juggler and face painting. Special guided tours will be held from noon to 3 p.m. to give campus employees, their families and the community a look at Long Hospital's new features — many not normally accessible — including the Haas Radiation Oncology Pavilion, physical therapy's new pool and gym, patient care areas, operating and scrub rooms, EKG and echocardiography, clinical laboratories, materiel service, and magnetic

(Continued inside)

Chancellor Julius R. Krevans, MD, has been chosen to receive the Abraham Flexner Award from the American Association of Medical Colleges (AAMC) at its 94th annual meeting in Washington, D.C. on November 8. The coveted Flexner Award was established in 1958 to recognize extraordinary individual contributions to medical schools and to the medical educational community as a whole.

The AAMC is recognizing Chancellor Krevans for his preeminent career in medical education, for his vigorous promotion of excellence in biomedical research, and for his accomplishments as a teacher and academic leader. Krevans served as 1980-81 chair of the AAMC, the highest elected office of the association.

Vol. 9 No. 16, Sept. 17-30, 1983



LABORATORY MEDICINE GRAND ROUNDS: *The Current Status of Hospital Information Systems.* Donald W. Simborg, Hosp. Info. Syst. L 535. 4-5 p.m.

MEDICINE GRAND ROUNDS: *Asthma.*

NEWS BRIEFS

(Long Dedication continued)

resonance (NMR) facilities developed by our Radiology Department.

All tours will leave from the Medical Sciences lobby, ending on the second floor of Moffitt in the Golden Gate Room, where refreshments will be served. A photo exhibit entitled "24 Hours in the Life of a Hospital," TV news spots featuring UCSF, and the slide show "UCSF Now" will be shown in the Golden Gate Room.

Volunteers are needed to escort tours, serve lunch, decorate, or serve as monitors. If you would like to help make this major event a success, contact Richard Roginski at x2316.

The cost of this special dedication has been underwritten by private donations.

Several proposed changes for parking on Parnassus Avenue have been sent for review to the SF Department of Public Works by the Long Range Development Plan Logistics Committee.

The proposed changes are an interim response to problems of safety and congestion on Parnassus. No date for implementation has been set.

Proposed changes include:

- increase the number of yellow zones between Fifth Avenue and Hillway,
- eliminate the MUNI bus stops at Third Avenue and use instead the area in front of Medical Sciences building — already being used on a temporary basis due to Moffitt Circle construction,
- move commuter buses to the south side of Parnassus in front of the School of Dentistry and create a temporary 4-6 p.m. tow-away zone to accommodate the buses,
- relocate the white zone at the Child Care Center to make drop-off and pick-up easier and safer and create a temporary 7-9 a.m. and 4-6 p.m. tow-away zone to accommodate parents coming to the Center.

Long-term remedies are being investigated, which could include overpasses or underpasses.

The Logistics Committee, which consists of staff, student and faculty representatives, has been meeting over the past few months with representatives from the Commuter Club, Campus Police, Transportation and Materiel Management departments, Department of Public Works and MUNI.

For further information on these proposed changes, contact David Layne, Office of Associate Administrative Vice Chancellor, at x2911.

The Friends of Langley Porter Psychiatric Institute will hold their annual meeting and luncheon on Thursday, October 6, at noon at the Fort Mason Officers Club, Franklin at Bay Street, S.F.

Judith S. Wallerstein, PhD, executive director, Center for the Family in Transition, and senior lecturer, School of Social Welfare and School of Law, UC-Berkeley, will speak on "Children of Divorce: Preliminary Report of a 10-Year Follow-Up."

The meeting will honor Donald D. Doyle, author of the Short-Doyle Act and chair of the National Council of Advisors for LPPI, for his encouragement and support of mental health in the Bay Area.

Tickets are $30 general, $20 member contribution, $15 students. For reservations and further information call x77-397 from 9:30 a.m. to 1:30 p.m.

The French Hospital Health Plan and UCSF have announced an agreement by which members of the Health Plan will receive certain specialized services, such as obstetrics, at UCSF.

Health Plan members receive most of their medical care at French Hospital in San Francisco. But some services, such as obstetrics, pediatrics, cardiac surgery and radiation oncology, are not available there. The agreement, which was effective as of August 1, allows French Hospital Health Plan members to receive these specialized services at UCSF's Moffitt/Long Hospitals, including the Family Birthing Center and Intensive Care Nursery.

The Health Plan, started by French immigrants in 1851 at the height of the Gold Rush, now has some 7,500 members in San Francisco, San Mateo and Marin counties. It is the oldest prepaid health plan in the U.S.

Major employees offering the Health Plan include French Hospital, the City and County of San Francisco, Bank of America and the Seaman's Union of the Pacific.

The UCSF Faculty Wives will have a meeting on Wednesday, October 5, at 10:30 a.m. at the Fort Mason Center, with a tour of the Mexican Art Museum followed by lunch. For reservations contact Mrs. David Allen at 388-2883, before September 28.

Because a substantial number of UC employees now are exclusively represented by unions, changes have been made in the organizational and policy interpretation structure of the Personnel and Labor Relations departments.

Effective September 1, three Employee Relations analysts from the Personnel Department — Elba Clemente, Michele Graf and Julius Katz — have transferred to the Labor Relations Department. They will remain at LH-150, x1563, until the Labor Relations Department can be relocated.

- *For Represented Employees* (employees who hold classification titles which are in bargaining units represented by exclusive unions), the following will be handled by the Labor Relations Department:
  1) Staff Personnel Policy Interpretation (general),
  2) SPP 280-290, Grievance/Administrative Review.
- *For Non-Represented Employees* (employees who hold classification titles which are not in bargaining units represented by exclusive unions), the following will be handled by Noel Christian in the Personnel Department:
  1) Staff Personnel Policy Interpretation (general),
  2) Staff Personnel Policy Development and Revision,
  3) SPP 280-290, Grievance/Administrative Review. (NOTE: If a non-represented employee chooses to be represented by a union, it will be handled by Labor Relations.)
- *Supervisors* who are experiencing work-related problems with:
  1) non-represented employees, should contact Noel Christian in the Personnel Department.
  2) represented employees, should contact the Labor Relations Department.

Unless notice to the contrary is given, staff personnel policies will continue in effect for represented employees until collective bargaining contracts are negotiated. Staff personnel policies will continue for non-represented employees.

Managers, supervisors, non-represented employees, and non-union representatives should continue to consult with Noel Christian on employee relations matters, including interpretation and implementation of staff personnel policies. For further information contact Noel Christian, x2789, Labor Relations Manager William Neff, x3905, or Personnel Manager Chick Francis, x1298.

The Chancellor's Office is seeking nominations by supervisors for the Chancellor's Award for Exceptional University Service. This award is given to dedicated employees who have been at the top of their salary range for five years or longer, and are nominated by their supervisor. This year, six awards will be given. Each awardee will receive a certificate of appreciation, an engraved medallion and a check for $1,500. Nominations should be sent to Pat Duffy, 145 Irving Street. Deadline is Wednesday, October 12. For further information call x4318.

A special showing of fashion designer James Galanos' fall collection will be held on Monday, September 26, at 7 p.m. at I. Magnin Union Square to benefit the UCSF Rosalind Russell Medical Research Center for Arthritis. A reception will precede the show at 6 p.m. Actress Mary Martin will be a special guest at the event, which is coordinated by a committee chaired by Ann (Mrs. Richard K.) Miller, Mrs. Gorham B. Knowles and Mrs. George C. Dyer.

The UCSF Center is among the largest of 24 arthritis centers in the country established by the National Institutes of Health. It includes research laboratories at Long/Moffitt, SFGH and the San Francisco VAMC.

For further information on benefit tickets, at $50 each, contact Ephraim Engleman, MD, Center director, x1141.

The next campus blood drive is scheduled for Monday, October 10. Blood may be given in the main lounge of Millberry Union from 8 a.m. to 3 p.m., and on the mezzanine level of the School of Nursing building from 11 a.m. to 5:30 p.m. Appointments may be made by contacting the Moffitt Blood Bank at x4013, or donors may visit either location at their convenience. Donors are asked to bring personal ID.

Administrative leave with pay has been approved to allow employees who wish to donate blood during normally scheduled work hours, as long as patient care is not interrupted.

The ASUCSF has once again donated a raffle prize of a $35 gift certificate at the Washington Square Bar & Grill. The restaurant has matched the donation with a second $35 gift certificate. Blood donation receipts are used in the raffle drawing.

Ob/Gyn nurse practitioner Lynne V. Bosche and biochemistry graduate student Lawrence Mirels were named raffle winners in the May blood drive.

The Cystic Fibrosis Foundation has awarded a $1 million grant for a new Cystic Fibrosis Research Center at UCSF. The award will support multidisciplinary biomedical research to find the basic cause of cystic fibrosis, a lung and digestive-system disease that is the nation's number-one inherited killer of children.

The UCSF research team, headed by Jay A. Nadel, MD, pulmonary physiologist and senior member of the CVRI, will concentrate primarily on the pulmonary aspects of cystic fibrosis. Other studies at the research center will focus on ion transport, membrane alteration and nutrition.

HONORS & AWARDS

Ronald D. Miller, professor & vice chair, Anesthesia; professor, Pharmacology: Appointed to a second two-year term as a member of the Blood Products Advisory Committee, National Center for Drugs & Biologics of the USFDA. The committee, consisting of eight members, currently has the primary responsibility of assessing the possibility of transmission of Acquired Immune Deficiency Syndrome (AIDS) by blood products.

Linda Civitello-Joy, senior administrative analyst, Public Service Programs: 1983 Special Friend of Retired Senior Volunteer Program (RSVP) Award from Region IX ACTION Office, in recognition of her service to the SF Home Health Service RSVP and as chair, Advisory Council.

APPOINTMENTS

Wolfgang Sadee: Acting chair, Department of Pharmacy, School of Pharmacy, for the period September 15, 1983 to March 31, 1984. A member of UCSF since 1974, he became professor of Pharmacy in 1981 and vice chair of Pharmaceutical Chemistry in 1980.

Glenn E. Sheline: Acting chair, Department of Radiation Oncology, School of Medicine, for the period October 1, 1983 to September 30, 1984. He became a professor of Radiology in 1964, vice chair in 1968, and professor and vice chair of Radiation Oncology in 1978. He also has been research associate of Laboratory of Radiobiology since 1964.

VISITORS

Horacio Vanegas, professor, Biophysics, Institute of Scientific Investigation, Caracas, Venezuela, and **Chen Zhenfeng,** associate professor, Physiology, Xian Medical College, People's Republic of China, completing 1983 sabbaticals in the laboratory of Howard Fields.

Marguerite Roberts, physician, Victoria Geriatric Unit, Glasgow, Scotland: Visiting Mount Zion Hospital & Medical Center, Oct. 3-26.

PUBLICATIONS

Noel H. Fishman, clinical professor, Cardiothoracic Surgery: Author, *Thoracic Drainage: A Manual of Procedures* (Year Book Medical Publishers, Chicago, 1983).

Kathren V. Martz, lecturer, School of Nursing: Author, *Management of the Patient-Ventilator System* (second edition, C.V. Mosby, St. Louis, 1984).

IN MEMORIAM

Theodore C. Lee, a pioneer in implant dentistry — placing the root of a natural tooth into an artificial socket in the jawbone. A '26 graduate of the School of Dentistry, he was an activist in Chinatown community affairs, campaigning successfully for free dental care for Chinatown's children and against restrictive immigration laws.

William H. Rustad, retired SF surgeon with a long record of service in the maritime industry. An assistant clinical professor of Surgery from 1942 to 1972, he was founder of the Overseas Medical Center and former medical director of the Matson Navigation Co. and American President Lines.

Peter F. Ostwald, professor, Psychiatry: Invited lecturer, Third International Gervandhans Symposium, Leipzig, East Germany, to celebrate the 150th birthday of Johannes Brahms.

Katherine K. Matthay, assistant professor, Pediatrics: Two-year, $41,000 Leukemia Society of America, Inc. Fellowship, for her research on the development of potent anti-leukemic agents and the techniques for administering and enhancing these drugs to kill malignant cells.

A unique series of courses will start this fall to prepare specialists in women's health for a number of roles in health care and research. Courses will include a basic introduction to women's health issues, anthropological perspectives on gender, historical, cultural and policy issues and changing health needs over the life cycle.

In addition to classes during the school year, the project will offer an annual Summer Institute on Women's Health beginning in 1984. The Institute will draw women from around the country for two weeks of intense learning and an opportunity to exchange ideas.

All of these activities will be open to UCSF students and health practitioners from the community.

"Women's Roles in Health and Healing" is the first project in the country to combine graduate and continuing professional education in an interdisciplinary context, says Ellen Lewin, PhD, assistant professor, Medical Anthropology.

In addition to Lewin, the project's faculty include sociologists Sheryl Ruzek, PhD, MPH, adjunct associate professor, and Virginia Olesen, PhD, professor, who pioneered the first courses on women's health at UCSF in the early 1970's.

The project is sponsored by the Department of Social and Behavioral Sciences in the School of Nursing, using a three-year, $173,000 grant from the Fund for Improvement of Post-Secondary Education of the US Department of Education.
